GROCERIES, PROVISIONS & CROCKERY
AND EVERYTHING FOR A MAN TO WEAR.

ROY SMITH

THE FORD AGENT
GARAGE AND AUTO LIVERY
TERMS REASONABLE. PHONE 144. PROMPT SERVICE.
Bassano, Alta.

July 25th, 1918.

Ladies and Gentlemen,-

Run your car in here at any time and we will do any one or all of these things for you.

Show you how much air you should have in your tires for the load you carry.

Fill your radiator with water.

Test every tire on your car.

Put in air if necessary.

Raise or lower your top.

Examine your tires for cuts or other injuries.

Test your wheels for alignment.

Examine your springs for broken leaves.

That is the kind of service we extend to our customers. All we ask you to do is to take advantage of it.

The quality of the tires, tubes, tire savers and other automobile accessories we have for sale, is in perfect harmony with the service we give.

Ask DR. SCOTT about Goodyear tires. We sell them.

Why not, when buying tires, get this service for nothing? We are clearing out a portion of our stock at wholesale prices. Take advantage of these prices while the stock lasts.

Yours truly,
ROY SMITH.

BASEBALL

Brooks Put It Over Bear-Cats
By 12-5

The Bassano Ball team hit Brooks July 23rd 1918, and were defeated to the tune of 12 to 5, in a game featured by all kinds of "pops" from the Brooks team, and very little work by Bassano. We wonder sometimes what is the matter with the Bear-Cats; for of one thing, we are sure, and that is, we have the material for a first-class ball team, and just why they don't get together and play the game, as they can, and should, puzzles us. We have pitchers, who are everything that could be desired, one of the best outfielders, that Bassano, or any other Alberta town has ever seen, but lack the necessary team work in the in-field, although the boys who play the infield, are individually, good ball players. It is high time we got busy, and tried to locate the trouble. One very noticeable feature, is that the Bear-Cats are all "there" so long as we are winning, but seem to lose interest, when we get a run or two behind,—the very time we should all get busy, and work harder than ever. It is no disgrace to be defeated by a better team, but it is a disgrace, if we fail to acquit ourselves as "good sports," and play the game all the time, whether we are winning or losing, or whether we are up against a stronger or weaker team.

Very often, in estimating the strength of the opposing team, we have underrated their ability, as happened in this game with Brooks. It looked like too many of our boys felt they were going up against amateurs, and worked accordingly, consequently we got a "package" handed to us, which we rightly deserved. Even though we had a better team and we knew it, (or thought we did) it was up to us, to demonstrate to Brooks people, that we had a "real" ball team, who played ball, instead of trying to show Brooks up, by spectacular, individual work, which proved disastrous to us. The Bassano Bear-Cats have earned an enviable reputation this season, and when we are playing, we know the good people who patronize our games, want to see the best we have, all the time, instead of just good enough to win,—a slogan which sometimes leaves us in the defeated column, through baseball luck. Let's get busy boys and show our backers and supporters, that we are "real live sports" from now on, and show the "old life" in future games.

Late Rains Improve Conditions

Following the terrific heat wave which prevailed throughout the last week, weather conditions, have gradually become more favorable. On Friday a thunder-shower of about 80 minutes to one hour's duration, started a succession of showers which, together with low temperatures, has caused the hope of a fall similar to that of 1914 to be springing up in the hearts of the farmers.

Most of the wheat is too far gone to derive any benefit from the moisture but oats and green feed will be improved considerably.

The greatest boon which the late rain brings will be the opportunity it affords to the farmers for fall plowing and breaking.

Despite the adverse conditions of the year a tremendous amount of raw land is being prepared for next year. Optimism for the future is gradually displacing the despondency

Registration Figures Expose Shortage

Man Power Of The District Reaches Low Mark

The Registrar of Bow River District has up to the present received registration cards from the deputy registrars amounting to 80,167, of which number 19,230 are from males and 10,937 are from females.

There are still 15 deputy registrars to hear from and the estimated number of registrants from these points is estimated at 3,000.

As the Bow River District comprises an area of about 11,000 square miles it shows that there are only three persons of over 10 years, male and female, left to look after every square mile of land, and when the number of townpeople are taken out of that total the figures would drop to at least two per mile or even less, and thus the registration will show the depletion of the man-power of the Province even more clearly than it will furnish data of the man-power of the Dominion.

A Touching Affair

When Ford meets Ford, especially if the motive power of one is alcohol, there is usually a job for the garage or junk man.

Such an incident occurred on Sunday morn. on Monday afternoon, and the result of the social call made by the Ford of E. Eldale upon the Ford of Tom Evans, was a complete battification of the former—and a severe shock to the nerve of the latter.

Unfortunately for Eldale Bob White happened to be hovering round when he made such hasty overtures to Tom, and Bob has a great eye for speeders. The outcome of the affair was finally determined on Tuesday when Eldale was ordered to pay a fine of \$25.00 and costs for being in such a hurry. It is a thousand pities Bob's duties prevent him from sticking round more often in town.

Government Completes Arrangements For Hay

The Government is doing its utmost to relieve the hay and feed situation and with the co-operation of the C.P.R. they are making it comparatively easy for every farmer to secure a sufficient key for his stock to tide them over the winter.

The Provincial Department of Agriculture has issued the following official instructions re shipment of hay and hayging outfits north and south:

Edmonton, July 24.—Haymaking machinery shipped north at half rate and return at half rate. Application for certificates for shipping stock north on reduced rates should be sent to Labor Bureau, W. Grant, 6 Cameron Building, Calgary; J. Wale, Lethbridge; H. Hassard, Medicine Hat. Forms for application secured at any railway station. For shipment of hay and straw south the Provincial Department will issue certificates entitling shipper to reduced rate upon receipt of declaration that hay and straw are to be fed by shipper and not to be sold.—H. A. CRAIG

caused by the failure of the crop this year, and if the history of the past two years repeats itself the farmer who is carrying on to-day will be amply compensated by the harvest next year.

A Word with the Women!

There is no reason or object in adding to the discomforts of the trying summer days by cooking with an ordinary coal stove, when you can use a Florence Oil Stove and save time, labor and money, while you can prevent the house from becoming insufferably heated as it is when a coal or wood stove is used.

PLANS FOR TRANS-ATLANTIC FLIGHT BY AIR ROUTE TO THE FRONT

AMERICA TO BLAZE A NEW TRAIL TO EUROPE
United States' Full Power of Airplane Craft to be Brought Against
The Hun, and Bombing War Into Germany Will Be
Made on Large Scale

The establishment of an air route to Europe from the United States, in order to bring the full force of American effort to the air to bear against Germany, has been decided upon as a definite project by the British air council, the new organization into which all British air service has been merged. This was disclosed by Major-General William Brasher, controller of equipment to the council, who is in Washington to discuss this and other projects relating to air warfare with American officials.

Plans for an initial flight across the Atlantic in August, September or October of this year are already well advanced. American co-operation is sought and General Brasher hopes that the first machine to make the crossing will carry both British and American troops.

British pilots are now here, and several types of machines are being tested in England have ample fuel capacity for the forty hours of flying it is expected the trip would require.

The attitude of the American government toward the British project has not been disclosed, although General Brasher laid stress on the fact that the sole purpose of the project is to blaze a new trail to Europe, over which American aid would be delivered next year without taxing shipping.

Increasing stress is being placed on the German empire, and the British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

Under any consideration, a sea route is being carried out. The British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

The use of weight-carrying machines, such as night bombers, is essential, as the British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

The use of weight-carrying machines, such as night bombers, is essential, as the British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

Great Deposits of Anthracite on Peace Large Quantities of Anthracite in the Neighborhood of Hudson Hope

G. Steen, a prospector who has been working on the head waters of the Peace River, has arrived at Peace River town for supplies. He states that there are rich deposits of anthracite, copper, and other minerals in the country from Hudson Hope westward to the sources of the Peace and Findlay rivers. He predicts that there will be prosperous mining camps there, and that many transportation facilities have been provided. He also states that there are great deposits of anthracite in the neighborhood of Hudson Hope, which will be used for the construction of the Prince George and Hudson Bay railway.

At a sale of school lands in North Saskatchewan district, the Government sold 810 to \$55.50 per acre for new land.

Why China is Unable to Help

Prevented by Financial Difficulties

From Aiding Allies
Chinese soldiers are available for co-operation with the Japanese at Harbin and some other strategic points and if necessary more will be sent. The premier and his cabinet are now in a position to do so.

The threatening situation on our frontier, certainly demands safeguards. We do not want the Bolsheviks to be able to make use of the Chinese soldiers as a lever for the Japanese in the war on the European continent. The premier and his cabinet are now in a position to do so.

Regarding the feeling of the Chinese people toward Germany, the British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

Under any consideration, a sea route is being carried out. The British air council is now being urged to take the initiative in the matter. The British air council is now being urged to take the initiative in the matter.

The Advent of Revolution

On the Eve of a Revolution of Our

What a time of change and thought! We are living not only in the crisis of the greatest war that has ever afflicted the world, but also in the advent of a new era. The advent of a new era, the advent of a new era, the advent of a new era.

Kaiser Indulges in Grim Jest

Talks of his Conception of Christian Duty Towards Wounded and Ill

Emperor William is pictured by Karl Moser, the correspondent of the London Standard, who is attached to the emperor's suite, as acting as a good Samaritan toward the British soldiers on May 28. While descending Mount Elver, his majesty stopped alongside two unconscious British soldiers and administered first aid to them, to stay and bandage their wounds and to arrange for their transfer to the hospital.

After asper the men's thoughts turned to the British high command, the emperor represents the monarch as saying: "When the enemy is beaten we must care for him with all the power and means given to us. He is a beaten enemy is no longer an enemy for us. If those over yonder think and act otherwise, that is their business. Germany will preserve our conception of Christian duty toward the ill and wounded."

"While visiting war, we will also treat those wounded in battle so that this terrible injury does not become an even more serious one for them. We must be able to remove every day and every night from this land these wounded men."

Urge Canada To Make More Shells

British Authorities Want Output of 100,000 Shells Per Week

The imperial munition board has been urged by the British military to provide an increased supply of 10-pounder shrapnel shells from Canada. The British military authorities estimate that the present supply is insufficient for the needs of the British Army in the Middle East. The British military authorities estimate that the present supply is insufficient for the needs of the British Army in the Middle East.

Canadian Coal in Distant Climes

Only Canadian Coal is Being Used by Hawaiians

How Canadian coal is being used in Hawaii is shown in a report received by the department of trade and commerce from R. Bryson, Canadian trade commissioner at Honolulu. The report states that the Hawaiian Islands are using Canadian coal for their steamships and for their power plants. The report states that the Hawaiian Islands are using Canadian coal for their steamships and for their power plants.

Absolutely Unfounded

In Idea of Charge Made for Blankets in Which Soldier is Buried

There is an absurd, but widespread rumor that the military authorities have charged the families of soldiers who have been killed in the war with the cost of the blankets in which they are buried. This is a charge made against the families of soldiers who have been killed in the war with the cost of the blankets in which they are buried.

France's Day Appeal of French Red Cross

This week our Ally France celebrated
the 12th anniversary of its epoch-making
victory in the Battle of the Marne, the
Battle, July 14th, 1918. Starting
it did the triumph of the people in
their struggle for liberty—the victory
the oppressed over tyranny—the date is
annually commemorated in France as the
"France's Day" of the French Republic.

In the past four years over a million
men of France have given their lives
that their country might continue to
stand in liberty and safety. Patriotism
and loyalty-making have no longer a part
in the celebrations with which the people
of France went to commemorate the
birthday of the Republic. France re-
members her dead. She remembers
them proudly, severely, faithfully.
We see men, women, even little children
thousands of these lonely, sorrowing,
sorrowing but unbroken, pitching them-
selves upon this day of commemora-
tion, to endure, to fight and to sacrifice
until the enemies of France are driven
from French soil. Till the rights of
nations and the liberties of men—the
sacredness of home and the dignity of
honour, shall be recognized by those
nations, as obligations which they owe
the righteousness of military autonomy—
and not lightly thrust aside.

We see old men, women and children,
legions of France, driven from homes,
many of them separated forever from
kindred—exilee on the flag of their
country as it floats proudly in their
midst. We see them moved by an
emotion too deep for tears—as the up-
lifted hands and raised arms, they cry
with one accord "Vive La France!"

We see the French soldier as he salutes
the great tricolour—consecrating himself
to further deeds of heroism and of
valor for the sake of his country. He
recalls his fallen comrades, he thinks
of those held prisoners in an enemy
country. These too whom neither "Pax
Munici nor service may commemorate the
birthday of the Republic.

And upon this Fete day of France, in
Thousands of Hospitals, weary men
stricken in the flower of manhood,
maimed and suffering—stretched upon
beds of pain—their lives hanging by
the open window, their faces to them
the beloved strain of La Marseillaise
through men become like little children—
gaze in their eyes, gaze down
their cheeks. They turn their faces
aside, sobbing that they should witness
the agony of these men, these boys, these
manhood. They who have suffered so
much, and who have lived to wear once
again upon the Fete day of France, the
emblem of the Nation's Anthem.

That do men suffer—thus does a great
Nation endure unflinchingly—grazing
again her loss, dedicating heart again
to victory "Vive La France!" But a
what could a million dead—thousands
homeless—thousands maimed! Still the
wounded pour into steadily crowded
Hospitals, passing through the skilled
hands of doctors, nurses and attendants,
wound every day of service is a record of
bravery and sacrifice. And over these
wounded men, the great Hospitals taxed
to the capacity, over tired surgeons and
weary Sisters—the great "Mother of
Men" the Red Cross stretches out her

Sale of Stray Horses By The Provincial Government.

Notes is hereby given that under the
provisions of the Statutes in force in
Chapter 27 of the Statutes of 1918,
there will be offered for sale at
Glendon, at the Dipping Vat on
the Blackfoot Reserve, two miles
south of the village, on Friday, August
9th, 1918, 45 horses which were taken
up as strays, advertised according to
the terms of the said act, and are now
unclaimed. The detailed description of
each will appear in the Supplement of
the Alberta Gazette of July 26th, 1918.
There are a number of good, useful
horses in the lot.

W. F. STEVENS,
Live Stock Commissioner.

"Intolerance"

J. W. Griffin's magnificent spectacle
"Intolerance," the season's biggest hit
in New York, is coming to the Glen
Theatre for a farewell engagement at
popular prices for one day Monday July
29th.

In every way the production which
will be shown here will be the same as
the Broadway one including the original
and magnificent orchestration.

The spectacular wonders of
"Intolerance" have never been equalled,
possibly never will be, because of the
kind of cast of their production. The
director, like Mr. Griffin, who had
millions of dollars at his command,
could have attempted the recreation of
ancient Babylon, a city famed for its
colossal architectural structures, its
grandeur and its life of prodigious luxury.
This Babylonian episode, which cost
more than any entire spectacle ever be-
fore produced, is but one fourth of
"Intolerance"

protective arms. The Red Cross
of France on France's Day appeals for
those for children, for those for suffer-
ing and for the exiled ones, who in
Prison camps of the enemy have learnt
that this symbol of Mercy is for them
also the Messenger of Hope.

Throughout the British Empire, men
and women have been called upon to re-
spond to this appeal of the French Red
Cross, through the channels of their re-
spective Red Cross Societies.

Last year the Alberta Red Cross gave
\$11,000.00 to the sick and wounded of
France. This year a still greater need
must be met and the sum of \$25,000.00
has been appropriated from the funds of
the Society as a contribution to the French
Red Cross. No special appeal will be
made, but it is in expectation of many
generous contributions to the needs of
France, that the Alberta Red Cross has
pledged itself to this gift.

France's Day—the suffering of
France—the heroism of France. These
are thoughts to stir within us responsive
sympathy, to make us ask ourselves
what we in Canada have suffered, what
we have sacrificed as compared with
the people of the great Republic.

Contributions for "France's Day"
fund should be remitted through Local
Branches of the Red Cross Society and
specially marked for the above fund.

Two Questions

With so many low-priced
so-called anti-skids obtain-
able, would that great host
of motorists pay more for
Dunlop "Traction" Tread
if they could get its merits
elsewhere?

Also, would that other
large list of car owners buy
"SPECIAL"
if tires which somewhat
resemble it in appearance
resembled it in efficiency?

formerly run by G. Pincoe.

We have been in the business for the past
15 years and undertake repair work to all
makes of cars.

We guarantee all work under the satisfaction
or money back test. We test all batteries
free of charge and if necessary we will re-
charge them.

W. E. SANBROOK Proprietor

Buy an Irrigated Farm

From the Canadian Pacific Railway.

Irrigation makes the farmer
independent of rainfall, and
insures good crops, not oc-
casionally, but EVERY YEAR.

Irrigation makes possible the
successful culture of alfalfa,
the King of alfalfa, which in-
sures good returns in dairying
and stock raising.

Irrigation means intensive farm-
ing and close settlement, with
all the advantages of a densely
populated agricultural community.

Irrigation in the Canadian Pacific
Railway Irrigation Block is no
longer an experiment, the years
that it has been tried having
absolutely demonstrated its success
wherever intelligently applied.

THIS is the most liberal offer of irrigated farm land on record.

For full particulars, apply to
Allan Cameron, General Supt. of Lands
Canadian Pacific Railway, Department of Natural Resources
208 First Street East, Calgary, Alberta.

JOS. WRIGHT,

Box 26 Nine years local Manager. Phone 31

Local and Personal.

Service will be held in the Anglican Church on Sunday next at 7.30 p.m.

Mrs. M. G. Barracough recently of Calgary has accepted a position with Burns & Mcivor.

A number of townspeople took in Clientelism and dances at Brooks this week.

The Hat Stampede drew a large number of Bassano people, some of whom were satisfied with the show and others otherwise.

Sam Drumheller, the man who put the drum, and the better too in Drumheller was a visitor to Bassano this week.

In the recent list of Commemorative for taking Oath appears the name of Charles Franklin Dooley Bassano.

A. G. Bond has been appointed Assistant Sheriff for the Sub-Judicial district of Bassano, by Court.

Brooks 12—Barr-Cats 5—wow! This ill of world is sure plumb full of surprises. But who'd a thought this would ever happen!

Mr. and Mrs. Scott who have been visiting with DA and Mrs. Scott for the past few weeks returned to their home at Niogo, Man. on Tuesday.

The Anglican Sunday School picnic will be held on Tuesday next at the river. Members of the congregation are especially invited to be present with the children.

Billy Fortier, R. Burroughs, H. Somerville and Billy Graham assisted Vulcan and Gleichen to win first and third money in the Ball tournament at the Hat.

There is a farmer in this district who is reported to be openly disloyal and seditious. It is the duty of any citizen to report such a man to the police when corroborative testimony can be obtained.

There was nothing extremely wild or western about the Wild West Show which visited town on Monday. However, the town benefited appreciably by reason of the license fee.

S. Eldred has the distinction of being the first man to pay a fine for speeding in Bassano. A number of men in town no doubt are repeating the phrase "There, but for the blindness of the officials, stands I."

That the present year is an ideal one for proving the value of irrigated lands is fully recognized by the C.P.R., and during the present week a large number of prospective buyers from the States have been inspecting land in this district.

Brooks' school is being repaired. Somebody must have died and left the town some money, which may account for the southern tint of the roof; the color scheme of the sides, white and green, is symbolic of hope and envy. The latter needless to add of Bassano.

A lesson in food production is the verdict of a party of townspeople who inspected the Kinsmen's Farm on Sunday last. Fred's wheat, oats and garden truck are sights for hungry eyes, and the pride of their owner's heart.

A number of crossings in town have at last been improved by the substitution of cinders for the old and worn planks. It might be possible now for the average autoist to enter town without fear of breaking a spring or a few of the car's manducatus.

The Brooks' Town Council have made arrangements with the C.P.R. for the supply of water for irrigation purposes in town. We hate to acknowledge it, but it really looks as if our neighbour has at last woken up to the fact that Brooks needs re-planting.

A Sunday School Convention will be held in the Presbyterian Church on Sunday August 8th. Various subjects, vital to the interest of young people, will be discussed. Special music will also be rendered at all the services. Be sure and plan to be present. Fuller particulars next week.

Headquarters For Fishing Supplies

The Fishing Season has opened and local anglers are landing some splendid specimens of pike, pickerel, ling and grayling, not to mention the ubiquitous sucker.

We have a full line of Fishing Supplies and you cannot do better than inspect our stock if you would be fully equipped for the sport. We also issue Fishing Licenses.

BINDER TWINE!

Farmers requiring binder twine should leave their orders without delay to ensure prompt delivery.

E. EVANS & SON
E. G. Holley, Mgr. Phone 22

A Generous Offer

Brian H. Bunney, the owner of the champion Percheron Stallion "Carnegie," and also a number of other magnificent specimens of the Percheron breed, including "Mustang," has made an offer to the Red Cross Society, through the editor, of the pick of his yearling colts provided that the Society obtain for the colts not less than \$200.

Mr. Bunney's offer we are sure will meet with an enthusiastic reception from the Society, and there is but little doubt that the amount he has stipulated will be readily forthcoming. Mr. Bunney states that the purchaser or winner may take his choice of either mares or geldings and that if requested he will permit the colts to remain with his string of horses until the spring.

This generous offer we trust will find others of like nature and it may not be too much to hope that sufficient may be forthcoming to justify a Real Red Cross Day for Bassano in spite of conditions.

STRAYED

1 Bay Clyde Mare with halter and rope round the neck, also rope burn on the hind leg, 8 years old and weight about 1250 lbs. 1 Dark Brown Mare with halter and rope, and also sort of dark-furred, 7 years old and weight about 1200 lbs. \$15.00 Reward will be paid for information or recovery of same by E. O. PEYERLYNDY, Box 670, Bassano
